

atw – Information for Authorsrequired

atw's technical and scientific reports cover developments and trends in all major areas of nuclear power technology, as also related energy economics, law, and energy politics.
atw's news cover all major areas of actual developments in the energy industry, energy law, the nuclear sector as also news from the industry, research facilities, and organisations.

Technical Reports

Size / Content: Not less than 2 and not more than 8 atw printed pages.
1 atw printed page is equal to about 6,000 characters incl. spaces.
1 table respectively 1 picture is equal to about 1,250 characters.
All technical reports will be reviewed by the editorial committees.

Abstract: Length: about 1,500 characters.
In English, German translation by the editors.

Text format: Word or equal digital file. Transmission by e-mail preferred.

Language: English or German, chosen by the author.

Pictures: Digital files.
Black and white preferred with high contrast.
File format: any.
Picture resolution: greater 300 dpi or vector graphics.
Please consider: Pictures are printed black and white (grayscale).

Please structure the text – Introduction, Main part, Summary.
Please insert chapter heads (no special numbering required).
Please do not use footnotes. Embrace references with slashes: /??/?/ and add the reference list at the end of the text.

The **Main Topics** (see Editorial Programme) are for general purposes. The publication of technical reports beyond these topics is possible in every issue of atw – independent of the proposed main topic - e.g. due to their relevance to the present situation or due to the authors preference.

News

Relative to all topics mentioned above and also focussing on further topics of the application and developments of nuclear power.

Deadline for each issue: 10th of the previous month!
